# **SERVICE and REPAIR**

**ACUTECH LLC can offer a wide range of cost effective solutions to upgrade and maintain your existing plate punch bend and other equipment regardless of manufacturer.**

**In today's economy, extending the useful life of machinery can be a necessity for staying competitive with costs.**

**Let ACUTECH help you keep your equipment running!**

## Repair and keep your equipment in operation

In Line Bender

## Extend the use life of your older equipment

Most newspapers are facing challenging times. Cost justification to acquire new punch bend and other plate room equipment is becoming more difficult each year. Yet the requirements to maintain production efficiencies grow and have never been more demanding.

ACUTECH offers superior service and parts for most older punch bend machines and other plate room equipment.

Many old line name brands have long since disappeared but their machines are still in use. Let us help you keep them running

## Services Offered

Auto Punch Deleafers

Plate Conveyors

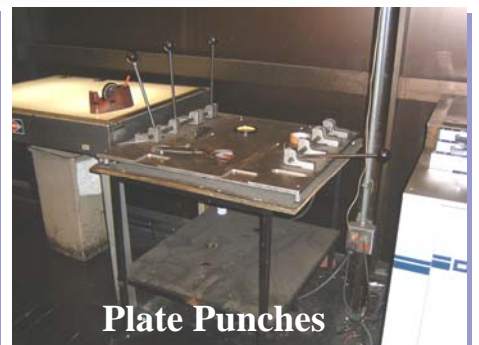

Plate Punches

## PLC Controls and Programs

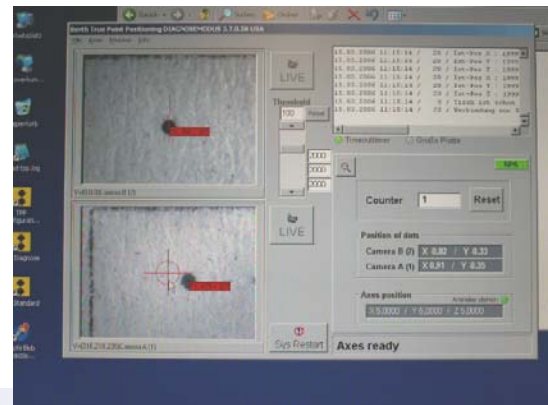

We program in Allen Bradley, Omron, Siemens, Mitsubishi, GE and other languages that are used in older equipment. We also have replacement electrical and board components from used machines catalogued and in stock.

***Did you know we offer full technical service on your existing punch benders?***

## Upgrades to Systems

ACUTECH can replace out dated PC/PLC and vision systems with NEW backward compatible components.

## Service and Maintenance

# Maximize your existing equipment performance and reduce cost

Press Register Control

Sortation Stackers

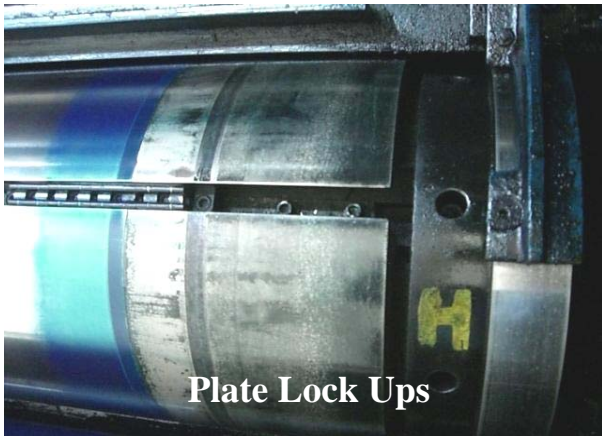

Plate Lock Ups

Film plate Exposures

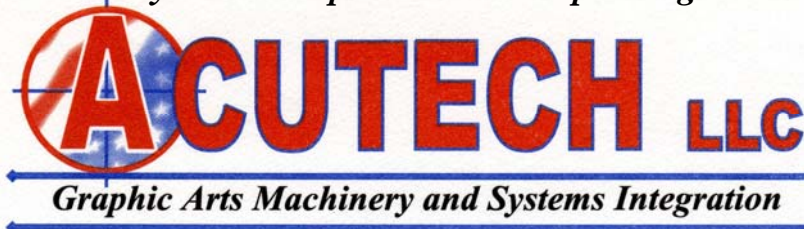

Film Plate Exposures

Old Magnetic Locks

ACUTECH can help keep your plate room machinery and press locks running at their best. We offer break-fix-repair and preventive maintenance programs that fit expense budgets when capital projects cannot be had.
